Energy Storage for the Alpine Space

AlpStore project: the regional technical workshop on storage and electric mobility on June 27th

Within the framework of the AlpStore project the Aosta Valley Region organizes a technical workshop on storage systems and electric mobility on June 27th, 2014 at the castle of Bard in the Municipality of Bard (AO), Italy

AOSTA, 30/05/2014 What is the state of the art of storage systems from a technological, regulatory and market point of view? What opportunities and new business models will succeed in the coming years ? How is the energy system, with particular regards to the Aosta Valley, going to develop and what solutions could be integrated in order to facilitate the transition to electric mobility ? These are some of the key topics that the workshop “*storage systems and distributed electric mobility: new challenges and opportunities for the energy system*”, aims to debate with the help of national and regional authorities , universities, energy companies, associations, free lancers and enterprises.

alpstore@baumgroup.de

The speakers include the Technical University of Milan, the Energy System Research authority RSE, the National Agency for Energy Efficiency ENEA , the Technical University of Turin, the Regional Administration, the Aosta Valley Energy Agency, the local DSO, DEVAL Spa , businesses and professionals.

Participation is free , with a maximum number of participants of 100 people. Further information are available at http://www.regione.vda.it/energia/AlpStore/default_i.aspx. The technical workshop will be held in Italian.

Note for the editor:

AlpStore is supported by the Alpine Space Programme 2007-2013, which is part of the "European Territorial Cooperation" (Objective 3 of the Regional Policy 2007-2013). Together with 13 other programmes it strives for transnational cooperation in and between the European Regions. The programme's overall aim is to increase the competitiveness and the attractiveness of the cooperation area in a sustainable way. Thus it supports transnational projects in the Alpine area fostering territorial development and cohesion. These projects involve key actors of the cooperation area and develop joint actions for shared solutions on specific Alpine issues as laid down in the programme "priorities": competitiveness and attractiveness; accessibility and connectivity; environment and risk prevention.
